Drivon — Manual Test Guide

Phases 1–8: accounts and vehicles, fuel, services and expenses, documents, insights, reminders and notifications, Ask My Vehicle, and offline use. Every test is done in the app on your phone. Each one says exactly what to type and tap, and what you should see.

Expected numbers were checked by running this exact scenario against the API. Text in **violet** is shown by the app word for word. Example dates assume today is 11 Oct 2026; use your own dates.

Before you start

1. **API:** start it from IntelliJ as usual, with the R2 variables (Phase 4), `FIREBASE_SERVICE_ACCOUNT_BASE64` (Phase 6) and `GEMINI_API_KEY` / `GROQ_API_KEY` (Phase 7) set.
2. **Fresh install:** on the phone, long-press the Drivon icon → **Uninstall**. Then run the app from Android Studio (with `google-services.json` in place and the phone connected as usual). A fresh install resets the notification permission and the data saved on the phone, so Phases 6 and 8 behave as described.
3. **Have ready:** a sheet of paper to photograph, and a small PDF (under 5 MB) saved on the phone, for example a bill or ticket in *Downloads*.
4. Use a **new account** (an email you have not registered before) so the numbers match. To repeat the guide later, change the email, for example `nimal.drivon2@example.com`.
5. Run all tests **in order and on the same day**. Later tests build on earlier ones; dates are relative to **today**. Don't run Phase 5 in January (it compares *last month* with *this year*).
6. Dates appear as `11 Oct 2026`; months as `October 2026`. "Last month" means the calendar month before this one.
7. Confirmation messages such as **Fill-up logged** appear briefly in a dark bar at the bottom (a snackbar). If two come quickly, the second waits for the first to fade.

How to read a test. Steps say what to do: *Field* → *value* means tap the field and type the value. **Expected** lists what must be true. Tick Pass or Fail and note anything odd.

Known issue — date pickers for future dates. The calendars for **Next service date**, **Due date (optional)**, **Issue date (optional)** and **Expiry date (optional)** open far ahead (January 2100, next year or ten years ahead) instead of near today. The steps work around it: tap the **month-and-year label** at the top of the calendar (for example *January 2100*), choose this year in the list, and the calendar jumps back to the current month. Then tap the day (use the **< >** arrows for another month) and tap **OK**.

Test data used throughout

Item	Value
Your name / email / password	Nimal Perera / `nimal.drivon@example.com` / `Drivon2026`
Vehicle 1	Toyota Aqua, 2018, registration `cab - 1234`, Hybrid, odometer 45,000 km

Vehicle 2	Honda Dio, 2021, registration `BGH-4521`, Petrol, odometer 12,000 km
Fuel price	Rs. 365 per litre (Rs. 350 last month)

Phase 1 — Accounts & vehicles: 1.1–1.11

Phase 2 — Fuel tracking: 2.1–2.15

Phase 3 — Services & expenses: 3.1–3.14

Phase 4 — Documents: 4.1–4.9

Phase 5 — Insights & cost per km: 5.1–5.6

Phase 6 — Reminders & notifications: 6.1–6.12

Phase 7 — Ask My Vehicle: 7.1–7.10

Phase 8 — Offline: 8.1–8.9

Optional checks: X.1–X.3

Phase 1 — Accounts & vehicles

1.1 Create-account form checks

STEPS

1. Open the app. On Welcome back (subtitle Sign in to see your vehicles.), tap **Create an account** at the bottom.
2. Leave every field empty and tap **Create account**.
3. Your name → `Nimal Perera`, Email → `nimal@`, Password → `short1`. Tap **Create account**.

EXPECTED

- ✓ Step 1: title Create your account, subtitle Track fuel, services and costs for up to two vehicles.; the password field has the hint At least 8 characters.
- ✓ Step 2: Enter your name., Enter your email. and Enter your password. Nothing is sent.
- ✓ Step 3: Enter a valid email, like name@example.com. under Email and Use at least 8 characters. under Password.

☐ Pass ☐ Fail Notes: _____

1.2 Create the account

STEPS

1. Email → `nimal.drivon@example.com`, Password → `Drivon2026` (name stays Nimal Perera).
2. Tap the eye icon in the password field, then tap it again.
3. Tap **Create account**.

EXPECTED

- ✓ The eye icon shows, then hides, the password.
- ✓ The Garage opens: title Drivon, an account icon at the top right, and the empty state Add your first vehicle / Log fill-ups, services and costs for each vehicle. You can add up to two. with an **Add vehicle** button. There is no sparkle (Ask My Vehicle) icon yet.
- ✓ The bottom bar shows **Garage**, **Fuel**, **Service**, **Expenses** and **Insights**, with Garage selected.

☐ Pass ☐ Fail Notes: _____

1.3 Stay signed in after restarting

STEPS

1. Close the app completely (swipe it away from recent apps), then open it again from its icon.

EXPECTED

- ✓ After a short loading moment the Garage opens again. You are not asked to sign in.

☐ Pass ☐ Fail Notes: _____

1.4 Sign out, duplicate email, wrong password, sign in

STEPS

1. Tap the account icon (top right of the Garage).
2. Tap **Sign out**.
3. Tap **Create an account**. Enter Nimal Perera, `nimal.drivon@example.com`, `Drivon2026` and tap **Create account**.
4. Tap **Sign in** at the bottom. Email → `nimal.drivon@example.com`, Password → `Wrong2026`. Tap **Sign in**.
5. Change the password to `Drivon2026` and tap **Sign in**.

EXPECTED

- ✓ Step 1: a sheet slides up with Nimal Perera, nimal.drivon@example.com and a **Sign out** button.
- ✓ Step 2: the Welcome back screen opens.
- ✓ Step 3: a red message: An account with this email already exists. Sign in instead.
- ✓ Step 4: That email and password don't match. Try again.
- ✓ Step 5: the Garage opens (empty).

☐ Pass ☐ Fail Notes: _____

1.5 Vehicle form checks

STEPS

1. Tap **Add vehicle**. Without filling anything, scroll down and tap the **Add vehicle** button.
2. Model year → `1899`, Registration number → `CAB/1234`. Tap **Add vehicle**.

EXPECTED

- ✓ The form is titled Add vehicle; Registration number has the hint As on the number plate, e.g. CAB-1234; Fuel type has three buttons **Petrol** | **Diesel** | **Hybrid**, none selected.
- ✓ Step 1: Enter the make., Enter the model., Enter the model year., Enter the registration number., Choose a fuel type. and Enter the odometer reading.
- ✓ Step 2: Enter a year from 1900 to 2027. (the last year is next year) and Use up to 20 letters, numbers, spaces and hyphens.

☐ Pass ☐ Fail Notes: _____

1.6 Add the first vehicle

STEPS

1. Make → **Toyota**, Model → **Aqua**, Model year → **2018**, Registration number → **cab - 1234**, Fuel type → tap **Hybrid**, Current odometer → **45000**.
2. Tap **Add vehicle**, then scroll the Garage from top to bottom.

EXPECTED

✓ Vehicle added. The Garage shows Hello, Nimal; a sparkle icon (Ask My Vehicle) now sits next to the account icon.

✓ The large card: CAB-1234 (upper case, no spaces around the hyphen), Toyota Aqua, Odometer 45,000 km, and a pencil icon. Below it an **Odometer history** link.

✓ On the light sheet below, in this order:

- Average – and Fuel cost –, both with After two full fill-ups;
- a Next service card: Log a service to see when the next one is due.;
- Spent this month Rs. 0 / Fill-ups, services and expenses;
- a Reminders card: Add a reminder;
- an Ask My Vehicle card: Ask about fuel, services and costs;
- a Documents card: Add your insurance and licence;
- Fuel type Hybrid and Model year 2018; then an **Add another vehicle** button.

☐ Pass ☐ Fail Notes: _____

1.7 Add a second vehicle (limit of two)

STEPS

1. Tap **Add another vehicle**. Make → **Honda**, Model → **Dio**, Model year → **2021**, Registration number → **BGH-4521**, Fuel type → **Petrol**, Current odometer → **12000**. Tap **Add vehicle**.
2. Tap **Aqua** in the switcher, then **Dio**.

EXPECTED

✓ Vehicle added. A pill switcher appears above the card: **Aqua** CAB-1234 | **Dio** BGH-4521, with **Dio** selected.

✓ The card shows BGH-4521, Honda Dio, 12,000 km; the tiles show Petrol and 2021.

✓ The Add another vehicle button is gone; the text You've added the maximum of two vehicles. appears instead.

✓ Step 2: the switcher shows the Toyota, then the Honda again.

☐ Pass ☐ Fail Notes: _____

1.8 Registration numbers are unique per user

STEPS

1. With Dio selected, tap the pencil icon on the card.
2. Registration number → `cab-1234`. Tap **Save changes**.
3. Change it back to `BGH-4521` and tap **Save changes**.

EXPECTED

✓ Step 1: the form is titled Edit vehicle, with a bin icon at the top right.

✓ Step 2: under the registration field: You already have a vehicle with this registration number. Nothing is saved.

✓ Step 3: Changes saved; the Garage shows BGH-4521.

☐ Pass ☐ Fail Notes: _____

1.9 The odometer can't go down in the vehicle form

STEPS

1. Open **Edit vehicle** for Dio again. Read the hint under **Current odometer**.
2. Current odometer → `11000`. Tap **Save changes**.
3. Current odometer → `12500`. Tap **Save changes**.

EXPECTED

✓ Step 1: At least 12,000 km. To fix a mistyped reading, use Odometer history.

✓ Step 2: Can't be lower than 12,000 km, the last saved reading. Nothing is saved.

✓ Step 3: Changes saved; the card shows 12,500 km.

☐ Pass ☐ Fail Notes: _____

1.10 The selected vehicle is remembered

STEPS

1. Tap **Aqua** in the switcher. Close the app completely and open it again.

EXPECTED

✓ The Garage reopens with **Aqua** selected (CAB-1234, 45,000 km).

☐ Pass ☐ Fail Notes: _____

1.11 Delete a vehicle

STEPS

1. Tap **Dio**, then the pencil icon.
2. Tap the bin icon at the top right, then tap **Cancel**.
3. Tap the bin icon again, then **Delete**.

EXPECTED

✓ Step 2: a dialog **Delete Honda Dio?** / **This removes the vehicle and its details from Drivon. It can't be undone.** Cancel closes it; nothing changes.

✓ Step 3: **Vehicle deleted**. The Garage shows only the Toyota Aqua, with no switcher, and **Add another vehicle** is back.

☐ Pass ☐ Fail Notes: _____

Phase 2 — Fuel tracking

The vehicle is the **Toyota Aqua**. km/L uses the **full-tank method**: the distance between two fill-ups to full, divided by all litres added after the first of them.

2.1 Fuel tab before any fill-up

STEPS

1. Tap **Fuel** in the bottom bar.

EXPECTED

✓ Title Fuel. The screen shows Log your first fill-up, Fill the tank to full and log it. After your next full fill-up, Drivon shows your km/L and fuel cost per km. and a **Log fill-up** button.

☐ Pass ☐ Fail Notes: _____

2.2 Fill-up form checks

STEPS

1. Tap **Log fill-up**. Look at the form before typing.
2. Scroll down and tap the purple **Log fill-up** button without filling anything.
3. Use the system back gesture (or back button) to leave the form.

EXPECTED

✓ Step 1: title Log fill-up. **Date** shows today. **Odometer reading** has the hint Currently 45,000 km. Then Enter any two of litres, price and amount. above **Litres**, **Amount paid** and **Price per litre**. **Filled to full** is on, with km/L is measured between fill-ups to full. Turn off for a top-up. Last, **Station (optional)**.

✓ Step 2: Enter the odometer reading., Enter the litres. and Enter the amount paid. Nothing is saved.

✓ Step 3: back on the empty Fuel tab.

☐ Pass ☐ Fail Notes: _____

2.3 Log the first fill-up (full tank)

STEPS

1. Tap **Log fill-up**. Odometer reading → **45000**, Litres → **30**, Amount paid → **10950**. Look at Price per litre (don't type in it).
2. Leave Filled to full on. Station (optional) → **Ceypetco Kollupitiya**. Tap **Log fill-up**.

EXPECTED

✓ Step 1: Price per litre fills in as **Rs. 365** with Calculated from the other two.

✓ Step 2: Fill-up logged. The Fuel tab shows:

- a card km/L comes after two full fill-ups / Drivon measures the distance between fill-ups to full. Log your next full fill-up to see km/L and fuel cost per km.;
- This month Rs. 10,950; Fuel cost – with After two full fill-ups;
- Monthly fuel spend: six months, newest first: this month Rs. 10,950, the five earlier months Rs. 0; footnote All time: Rs. 10,950 on 1 fill-up, 30 L;
- under Fill-ups: Rs. 10,950 / 11 Oct 2026 · 30 L · 45,000 km / Ceypetco Kollupitiya, no tag.

✓ A purple **Log fill-up** button now floats at the bottom right.

☐ Pass ☐ Fail Notes: _____

2.4 Log a top-up, with litres calculated

STEPS

1. Tap **Log fill-up**. Odometer reading → **45200**.
2. Price per litre → **365**, then Amount paid → **3650**. Look at Litres.
3. Switch **Filled to full off**. Tap **Log fill-up**.

EXPECTED

✓ Step 2: Litres fills in as **10** with Calculated from the other two.

✓ Step 3: Fill-up logged. The newest row: Rs. 3,650 / 11 Oct 2026 · 10 L · 45,200 km with a grey Top-up tag. Still no km/L.

✓ This month Rs. 14,600; footnote All time: Rs. 14,600 on 2 fill-ups, 40 L.

☐ Pass ☐ Fail Notes: _____

2.5 The second full tank gives the first km/L

STEPS

1. Tap **Log fill-up**. Odometer reading → **45500**, Litres → **15**, Amount paid → **5475**. Leave Filled to full **on**. Tap **Log fill-up**.

EXPECTED

✓ A gauge: 20.00 km/L / Last tank, filled all the way. Below it Average 20.00 km/L and Best tank 20.00 km/L.
500 km (45,000 → 45,500) on the 10 L + 15 L added after the first full fill = 25 L.

✓ This month Rs. 20,075; Fuel cost Rs. 18.25 / km; footnote All time: Rs. 20,075 on 3 fill-ups, 55 L.

✓ The new row Rs. 5,475 / 11 Oct 2026 · 15 L · 45,500 km has a mint 20.00 km/L tag.

☐ Pass ☐ Fail Notes: _____

2.6 Another full tank: latest, average and best differ

STEPS

1. Tap **Log fill-up**. Odometer reading → **45800**, Litres → **20**, Amount paid → **7300**, Filled to full on. Tap **Log fill-up**.

EXPECTED

✓ Gauge 15.00 / Last tank, only partly filled. Average 17.78 km/L, Best tank 20.00 km/L.
Last tank 300 km ÷ 20 L; average 800 km ÷ 45 L.

✓ This month Rs. 27,375; Fuel cost Rs. 20.53 / km; footnote All time: Rs. 27,375 on 4 fill-ups, 75 L. The Rs. 7,300 row has a 15.00 km/L tag.

☐ Pass ☐ Fail Notes: _____

2.7 A back-dated fill-up must fit the odometer timeline

STEPS

1. Tap **Log fill-up**. Tap **Date**, pick **yesterday**, tap **OK**.
2. Odometer reading → **46000**, Litres → **10**, Amount paid → **3650**. Tap **Log fill-up**.
3. Go back without saving.

EXPECTED

✓ Step 1: days after today can't be picked.

✓ Step 2: under Odometer reading: For this date, enter at most 45,000 km, the reading on a later date. Nothing is saved.

✓ Step 3: the Fuel tab is unchanged (Rs. 27,375 this month).

☐ Pass ☐ Fail Notes: _____

2.8 Litres from a rupee amount (exact rounding)

STEPS

1. Tap **Log fill-up**. Price per litre → `365`, then Amount paid → `5000`. Then go back without saving.

EXPECTED

✓ Litres fills in as `13.699` (5,000 ÷ 365 rounded to 3 decimals). Nothing is logged.

☐ Pass ☐ Fail Notes: _____

2.9 Edit a fill-up: a full tank becomes a top-up

STEPS

1. Tap the Rs. 7,300 row. The Edit fill-up form opens with its values filled in.
2. Switch **Filled to full off**. Tap **Save changes**.

EXPECTED

✓ Changes saved. The Rs. 7,300 row now shows Top-up.

✓ Gauge back to 20.00; Average 20.00, Best tank 20.00; Fuel cost Rs. 18.25 / km. Spend unchanged: Rs. 27,375, All time: Rs. 27,375 on 4 fill-ups, 75 L.

☐ Pass ☐ Fail Notes: _____

2.10 Delete a fill-up

STEPS

1. Tap the Rs. 7,300 row, then the bin icon, then **Delete**.

EXPECTED

✓ The dialog: Delete this fill-up? / km/L and fuel totals will be recalculated without it. This can't be undone.

✓ Fill-up deleted. This month Rs. 20,075; footnote All time: Rs. 20,075 on 3 fill-ups, 55 L; gauge 20.00.

☐ Pass ☐ Fail Notes: _____

2.11 The Garage shows the fuel figures

STEPS

1. Tap **Garage**. Then tap the Average tile.

EXPECTED

✓ Odometer 45,500 km (the highest remaining reading). Average 20.00 km/L, Fuel cost Rs. 18.25 / km (no caption now), Spent this month Rs. 20,075.

✓ Tapping the Average tile switches to the Fuel tab.

☐ Pass ☐ Fail Notes: _____

2.12 Odometer history

STEPS

1. On the Garage, tap **Odometer history** (under the vehicle card).
2. Tap the top 45,500 km row, then go back.

EXPECTED

- ✓ Title Odometer history, text Readings from fill-ups, services and your own entries. A reading can't be lower than one on an earlier date or higher than one on a later date., and an **Add reading** button at the bottom right.
- ✓ Four rows, newest first: 45,500 km, 45,200 km and 45,000 km (each 11 Oct 2026 · From a fill-up with Tap to open the fill-up), then 45,000 km · Added with the vehicle.
- ✓ Step 2: Edit fill-up opens for the Rs. 5,475 fill-up.

☐ Pass ☐ Fail Notes: _____

2.13 Add and delete a manual reading

STEPS

1. Tap **Add reading**. Leave Date as today. Odometer reading → `45600`. Tap **Save reading**.
2. Go back to the Garage and check the odometer, then open Odometer history again.
3. Tap **Add reading**, set Date to **yesterday**, Odometer reading → `46000`, tap **Save reading**. Then go back.
4. Tap the 45,600 km row (Entered by you), tap the bin icon, then **Delete**.

EXPECTED

- ✓ Step 1: the form is titled Add odometer reading; then Reading added and a new top row 45,600 km / 11 Oct 2026 · Entered by you.
- ✓ Step 2: Garage odometer 45,600 km.
- ✓ Step 3: For this date, enter at most 45,000 km, the reading on a later date. Nothing is saved.
- ✓ Step 4: Delete this reading? / The vehicle's odometer will show the highest remaining reading.; then Reading deleted. The Garage odometer is back to 45,500 km.

☐ Pass ☐ Fail Notes: _____

2.14 Correct the reading the vehicle was added with

STEPS

1. In Odometer history tap the 45,000 km row that says Added with the vehicle.
2. Odometer reading → `44900`. Tap **Save reading**.

EXPECTED

- ✓ Step 1: title Correct reading with the note Fix a mistyped reading here. The vehicle's odometer always shows the highest reading, so a correction can lower it. There is **no** bin icon.
- ✓ Step 2: Reading corrected; the row shows 44,900 km · Added with the vehicle. The Garage odometer stays 45,500 km.

☐ Pass ☐ Fail Notes: _____

2.15 Raising the odometer in the vehicle form adds a reading

STEPS

1. On the Garage tap the pencil icon. Read the hint under Current odometer.
2. Current odometer → `45550`. Tap **Save changes**. Open **Odometer history**.

EXPECTED

✓ Step 1: At least 45,500 km. To fix a mistyped reading, use Odometer history.

✓ Step 2: Changes saved; the Garage shows 45,550 km; the top history row is 45,550 km / 11 Oct 2026 · Entered by you.

☐ Pass ☐ Fail Notes: _____

Phase 3 — Services & expenses

3.1 Service tab before any service

STEPS

1. Tap **Service** in the bottom bar.

EXPECTED

✓ Title Service; Log your first service, Record oil changes, services and repairs. Add when the next one is due and Drivon shows it here. and a **Log service** button.

☐ Pass ☐ Fail Notes: _____

3.2 Service form checks

STEPS

1. Tap **Log service**. Look at the form.
2. Scroll down and tap the purple **Log service** button without filling anything.
3. Odometer (optional) → `45700`, Next service at → `45000`. Tap **Log service**.

EXPECTED

✓ Step 1: **Service type**, **Date** (today), **Odometer (optional)** with Currently 45,550 km, **Cost** with Enter 0 for free or warranty work., **Notes (optional)**; then Next service (optional) / Set a date, a mileage or both. Drivon shows the next service on the Service tab., **Next service date** and **Next service at**.

✓ Step 2: Choose a service type. and Enter the cost.

✓ Step 3: under Next service at: Enter more than 45,700 km, the odometer at this service. Nothing is saved.

☐ Pass ☐ Fail Notes: _____

3.3 Log an oil change due again by mileage

STEPS

1. In the same form tap **Service type** and choose **Oil change**.
2. Keep Odometer at **45700**. Cost → **9800**, Notes → **Lanka Auto Care**, Next service at → **50700**. Leave Next service date empty. Tap **Log service**.
3. Open the **Garage** tab.

EXPECTED

- ✓ The type list offers: Oil change, General service, Tyre rotation, New tyres, Brake service, New battery, Wheel alignment, Air conditioning, Other service.
- ✓ Service logged. Under Coming up a lavender card: Oil change due in 5,000 km / Due at 50,700 km / Last done 11 Oct 2026.
- ✓ Under History: filter chips (All selected) and a row Oil change · Rs. 9,800 / 11 Oct 2026 · 45,700 km / Lanka Auto Care.
- ✓ Step 3: odometer 45,700 km. The Next service card reads Oil change due in 5,000 km / Due at 50,700 km. The Reminders card reads Nothing is due soon / Next: Oil change due in 5,000 km.

☐ Pass ☐ Fail Notes: _____

3.4 A service due by date (no odometer)

STEPS

1. On the Service tab tap the floating **Log service**. Service type → **Brake service**. Leave Odometer empty. Cost → **4500**.
2. Tap **Next service date**. Tap the month-and-year label (it shows January 2100), choose this year; go to the date **30 days from today** (e.g. 10 Nov 2026) and tap **OK**.
3. Tap the **×** in the field, then pick the same date again. Tap **Log service**.
4. Open the **Garage** tab.

EXPECTED

- ✓ Step 2: after choosing the year, tomorrow is selected and today and earlier days can't be picked.
- ✓ Step 3: the × clears the date; picking again sets it. Then Service logged. The Coming up card now reads Brake service due in 30 days / Due 10 Nov 2026; below it a smaller row Oil change due in 5,000 km / Due at 50,700 km. The brake row in History shows Rs. 4,500 and only the date.
- ✓ Step 4: the Next service card reads Brake service due in 30 days; Reminders: Next: Brake service due in 30 days. Odometer still 45,700 km.

☐ Pass ☐ Fail Notes: _____

3.5 Filter the service history

STEPS

1. Under History, swipe the chips left and tap **Brake service**.
2. Tap **Air conditioning**.
3. Tap **All**.

EXPECTED

✓ Step 1: only the Brake service row. Step 2: No air conditioning records yet. Step 3: both services again. Coming up stays the same throughout.

☐ Pass ☐ Fail Notes: _____

3.6 A free service

STEPS

1. Tap **Log service**. Service type → **Wheel alignment**, Cost → `0`. Leave everything else empty. Tap **Log service**.

EXPECTED

✓ Service logged; a row Wheel alignment · Rs. 0 appears at the top of History. Coming up is unchanged.

☐ Pass ☐ Fail Notes: _____

3.7 Edit and delete services

STEPS

1. Tap the Oil change row. Cost → `10500`. Tap **Save changes**.
2. Tap the Brake service row, tap the bin icon, then **Delete**.

EXPECTED

✓ Step 1: title Edit service; then Changes saved; the Oil change row shows Rs. 10,500.

✓ Step 2: Delete this service? / It's removed from the history, totals and upcoming services. This can't be undone.; then Service deleted. Coming up is back to Oil change due in 5,000 km. History: Wheel alignment (Rs. 0), Oil change (Rs. 10,500).

☐ Pass ☐ Fail Notes: _____

3.8 A service's reading in the odometer history

STEPS

1. Garage → **Odometer history**. Tap the top row.

EXPECTED

✓ Rows, newest first: 45,700 km (From a service, Tap to open the service), 45,550 km (Entered by you), 45,500 / 45,200 / 45,000 km (From a fill-up), 44,900 km (Added with the vehicle).

✓ Tapping 45,700 km opens Edit service for the oil change.

☐ Pass ☐ Fail Notes: _____

3.9 Expenses tab: fill-ups and services are already counted

STEPS

1. Tap **Expenses** in the bottom bar and scroll to the bottom.

EXPECTED

✓ A pill switch **This month** | **This year** | **All time** with This month selected.

✓ Total Rs. 30,575 with Fill-ups, services and expenses.

✓ By category: Fuel Rs. 20,075, Maintenance Rs. 10,500 (empty categories are not listed).

✓ Monthly spending: this month Rs. 30,575; five earlier months Rs. 0.

✓ Expenses you logged: Fill-ups and services are counted automatically. Add other costs such as insurance, parking and tolls. An **Add expense** button floats at the bottom right.

☐ Pass ☐ Fail Notes: _____

3.10 Expense form checks

STEPS

1. Tap **Add expense**, then the purple **Add expense** button without filling anything.
2. Tap the **Fuel** chip, then the **Maintenance** chip.

EXPECTED

✓ Step 1: Choose a category. and Enter the amount paid. The chips are Fuel, Maintenance, Repairs, Insurance, Parking, Tolls, Washing, Other.

✓ Step 2: with Fuel: Fill-ups from the Fuel tab are already counted as fuel. Use this for other fuel costs.; with Maintenance: Services from the Service tab are already counted as maintenance. Use this for other costs, such as parts you bought yourself.

☐ Pass ☐ Fail Notes: _____

3.11 Add expenses

STEPS

1. In the same form tap **Insurance**. Amount → `45000`, Notes → `Annual policy`. Tap **Add expense**.
2. Tap **Add expense** again: **Parking**, Amount → `200`, Notes → `Majestic City`. Tap **Add expense**.

EXPECTED

✓ Step 1: Expense added; total Rs. 75,575; By category: Insurance Rs. 45,000, Fuel Rs. 20,075, Maintenance Rs. 10,500.

✓ Step 2: total Rs. 75,775; Parking Rs. 200 is the fourth category. Under Expenses you logged: Parking · Rs. 200 / 11 Oct 2026 / Majestic City, then Insurance · Rs. 45,000 / 11 Oct 2026 / Annual policy.

☐ Pass ☐ Fail Notes: _____

3.12 Periods and monthly totals

STEPS

1. Tap **This year**, then **All time**, then **This month**. Scroll to Monthly spending.

EXPECTED

✓ Each period shows Rs. 75,775. Monthly spending: this month Rs. 75,775 with a full bar; earlier months Rs. 0.

☐ Pass ☐ Fail Notes: _____

3.13 Edit and delete an expense

STEPS

1. Tap the Parking row. Amount → `250`. Tap **Save changes**.
2. Tap the Parking row again, tap the bin icon, then **Delete**.

EXPECTED

✓ Step 1: title Edit expense; then Changes saved; total Rs. 75,825.

✓ Step 2: Delete this expense? / It's removed from your totals. This can't be undone.; then Expense deleted; total Rs. 75,575; Parking disappears from By category.

☐ Pass ☐ Fail Notes: _____

3.14 Compare two vehicles

STEPS

1. Garage → **Add another vehicle**: Honda, Dio, 2021, `BGH-4521`, Petrol, `12000`. Tap **Add vehicle** (Dio becomes selected).
2. Open **Expenses**.
3. Tap **Add expense**: **Washing**, Amount → `500`. Tap **Add expense**.
4. Open the **Fuel** and **Service** tabs.
5. Tap **Aqua** in the switcher at the top of the Service tab, then open Fuel and Expenses again.

EXPECTED

✓ Step 2: switcher Aqua | Dio with Dio selected; total Rs. 0; Nothing spent in this period yet.; a Your vehicles card: Toyota Aqua Rs. 75,575 and Honda Dio Rs. 0.

✓ Step 3: Expense added; Dio total Rs. 500 (Washing); Your vehicles: Toyota Aqua Rs. 75,575, Honda Dio Rs. 500, with Honda Dio in brighter text.

✓ Step 4: Dio shows Log your first fill-up and Log your first service.

✓ Step 5: Aqua's fill-ups, services and Rs. 75,575 total are back. The vehicle you pick is the same on every tab. **Keep Aqua selected** from here on.

☐ Pass ☐ Fail Notes: _____

Phase 4 — Documents

Files go straight from the phone to private storage, so this phase needs the R2 settings in the API. Aqua is selected.

4.1 The Documents card and the add form

STEPS

1. On the Garage, tap the Documents card (Add your insurance and licence).

EXPECTED

- ✓ The Add document form opens directly (there are no documents yet).
- ✓ It shows File / Take a clear photo of the paper or choose a PDF. Photos are compressed; files can be up to 5 MB. with **Take photo**, **Choose photo** and **Choose PDF**; **Document type** chips Insurance, Revenue licence, Registration, Invoice, Receipt, Other document; **Issue date (optional)**; **Expiry date (optional)** with Set it for insurance and licences to see when they expire.; **Notes (optional)**; and a **Save document** button.

☐ Pass ☐ Fail Notes: _____

4.2 Document form checks

STEPS

1. Tap **Save document** without filling anything.
2. Tap **Insurance**. Tap **Issue date (optional)**: the calendar opens a year ahead; tap the month-and-year label, choose this year (today becomes selected), tap **OK**.
3. Tap **Expiry date (optional)**: it opens ten years ahead; tap the label, choose this year (today is selected), tap **OK**. Tap **Save document**.

EXPECTED

- ✓ Step 1: a red note under the file buttons Add a photo or PDF of the document. and Choose a document type. under the chips.
- ✓ Step 3: both dates show today, each with a ×. Under Expiry date: Choose an expiry date after the issue date.; the file note is still shown. Nothing is uploaded.

☐ Pass ☐ Fail Notes: _____

4.3 Add the insurance with a photo

STEPS

1. Tap **Expiry date (optional)** and change it to **20 days from today** (e.g. 31 Oct 2026). Notes → `Policy 12345`.
2. Tap **Take photo**. Photograph the sheet of paper with the camera app and confirm the photo.
3. Tap **Save document**.

EXPECTED

- ✓ Step 2: the camera opens without asking for a permission. Back in the form, the file buttons are replaced by a card with a thumbnail, a file name ending in `.jpg`, Photo · … KB (under 5 MB) and a **Change file** button.
- ✓ Step 3: Uploading …% with a progress bar, then Document saved; you're back on the Garage.
- ✓ The Documents card now reads Insurance expires in 20 days / Expires in 20 days, with an amber clock icon.
- ✓ The Reminders card reads Insurance expires in 20 days / Expires 31 Oct 2026 (amber clock).

☐ Pass ☐ Fail Notes: _____

4.4 The Documents screen and the photo

STEPS

1. Tap the Documents card.
2. Tap the Insurance row. Pinch the photo to zoom in and out.

EXPECTED

- ✓ Step 1: title Documents. A lavender card: Insurance expires in 20 days / Expires 31 Oct 2026. Under Stored documents: Insurance with an amber Expires soon pill, Expires in 20 days · Photo, Policy 12345. An **Add document** button floats at the bottom right.
- ✓ Step 2: title Insurance, with a pencil and a bin icon. Your photo loads and zooms. Under Details: Document type Insurance, Issued 11 Oct 2026, Expires 31 Oct 2026 + Expires soon, File Photo · … KB, Notes Policy 12345.

☐ Pass ☐ Fail Notes: _____

4.5 Add an expired revenue licence as a PDF

STEPS

1. Go back to Documents. Tap **Add document**, then **Choose PDF** and pick your small PDF.
2. Tap **Revenue licence**. Leave Issue date empty. Expiry date → **yesterday** (tap the label, choose this year, tap yesterday, **OK**). Tap **Save document**.
3. Go back to the Garage.

EXPECTED

✓ Step 1: the phone's file picker opens; afterwards the card shows a PDF icon, the file name and PDF · … KB.

✓ Step 2: Document saved. The lavender card now reads Revenue licence has expired / Expired 10 Oct 2026 / 1 more document needs attention. The list (newest first): Revenue licence with a red Expired pill and Expired yesterday · PDF, then Insurance.

✓ Step 3: Documents card: Revenue licence has expired / Expired yesterday with a red icon. Reminders card: Revenue licence has expired / 1 more reminder needs attention, red icon.

☐ Pass ☐ Fail Notes: _____

4.6 Open the PDF

STEPS

1. Garage → Documents card → Revenue licence row. Tap **Open PDF**, then come back to Drivon.

EXPECTED

✓ A card shows PDF · … KB / Opens in your PDF viewer. The link works for 5 minutes. and an **Open PDF** button. Details show no Issued row and Expires 10 Oct 2026 + Expired.

✓ The PDF opens in the phone's PDF viewer (or the phone asks which app to use).

☐ Pass ☐ Fail Notes: _____

4.7 Edit a document's details

STEPS

1. On the Revenue licence screen tap the pencil icon.
2. Tap **Expiry date** and pick the **same day next year** (e.g. 11 Oct 2027; tap the label and choose next year). Tap **Save changes**.
3. Go back to the Documents list.

EXPECTED

✓ Step 1: title Edit document, with no File section; Revenue licence and the expiry date are filled in.

✓ Step 2: Changes saved; the detail screen shows Expires 11 Oct 2027 + a green Valid pill.

✓ Step 3: the lavender card is back to Insurance expires in 20 days (no "more" line). The row reads Revenue licence Valid / Expires 11 Oct 2027 · PDF.

☐ Pass ☐ Fail Notes: _____

4.8 Delete a document

STEPS

1. Open the Revenue licence, tap the bin icon, tap **Cancel**; tap the bin again, then **Delete**.

EXPECTED

✓ Dialog: Delete this document? / The details and the file are removed. This can't be undone.

✓ Document deleted; back on Documents, only Insurance is listed. The Garage Reminders card shows Insurance again: Insurance expires in 20 days / Expires 31 Oct 2026.

☐ Pass ☐ Fail Notes: _____

4.9 Change the chosen file before saving

STEPS

1. Documents → **Add document** → **Choose photo** and pick any photo.
2. Tap **Change file**. Then go back without saving.

EXPECTED

✓ Step 1: the system photo picker opens (no permission prompt); a card shows the thumbnail and Photo · … KB.

✓ Step 2: the card disappears and the three file buttons are back. Leaving adds nothing (still one document).

☐ Pass ☐ Fail Notes: _____

Phase 5 — Insights & cost per km

Chart details show while your finger is on a bar or point: **touch and hold**; they hide when you let go. Aqua is selected.

5.1 Insights with one month of data

STEPS

1. Tap **Insights** in the bottom bar and scroll from top to bottom.
2. Touch and hold this month's bar in Monthly costs.

EXPECTED

- ✓ Title Insights; the vehicle switcher (Aqua selected) and a pill switch with **This year** selected.
- ✓ The Running cost card: Rs. 94.47 / km, Rs. 75,575 over 800 km, a three-colour bar and Fuel Rs. 25.09 / km, Maintenance Rs. 13.13 / km, Other Rs. 56.25 / km.
  800 km = 44,900 (first reading this year) → 45,700 (latest).
- ✓ Monthly costs / Last 6 months, by part of the running cost. Tap a bar for details.: six months on the axis, only this month has a bar; legend Fuel, Maintenance, Other. Step 2 shows October 2026 · Total Rs. 75,575 · Fuel Rs. 20,075 · Maintenance Rs. 10,500 · Other Rs. 45,000 (one per line).
- ✓ Cost per km by month / Months without distance are left out.: Shown once two months have both costs and distance.
- ✓ Fuel efficiency by tank / Each point is one full tank in the last 12 months.: Shown after two full-tank fill-ups.
- ✓ Where the money goes: Insurance Rs. 45,000 · 60%, Fuel Rs. 20,075 · 27%, Maintenance Rs. 10,500 · 14%.
- ✓ Vehicles compared / Running cost per km over the same period.: Toyota Aqua Rs. 94.47 / km with CAB-1234 · 800 km · 20.00 km/L; Honda Dio – with BGH-4521 · 0 km.

☐ Pass ☐ Fail Notes: _____

5.2 Log last month's fill-ups

STEPS

1. Fuel tab → **Log fill-up**. Date → the **10th of last month** (use the < arrow; e.g. 10 Sep 2026). Odometer reading → `44000`, Litres → `25`, Amount paid → `8750`. Filled to full on. Tap **Log fill-up**.
2. Again: Date → the **20th of last month**, Odometer reading → `44450`, Litres → `20`, Amount paid → `7000`, full. Tap **Log fill-up**.
3. Scroll the Fuel tab.

EXPECTED

- ✓ Price per litre calculates as `Rs. 350` both times; both are accepted.
- ✓ Gauge 20.00 / Last tank; Average 20.00 km/L, Best tank 22.50 km/L. This month Rs. 20,075; Fuel cost Rs. 18.05 / km.
- ✓ Monthly fuel spend: this month Rs. 20,075, last month Rs. 15,750; footnote All time: Rs. 35,825 on 5 fill-ups, 100 L.
- ✓ Rows: … the Rs. 10,950 row (45,000 km) now has a 18.33 km/L tag; Rs. 7,000 / 20 Sep 2026 · 20 L · 44,450 km with 22.50 km/L; Rs. 8,750 / 10 Sep 2026 · 25 L · 44,000 km with no tag.
- ✓ The Garage odometer stays 45,700 km.

> If notifications for Drivon were already allowed (for example Android 12 or older allows them at install), a notification *Insurance expires soon* may arrive now. That's expected: any odometer change checks reminders (see Phase 6).

☐ Pass ☐ Fail Notes: _____

5.3 Insights over two months

STEPS

1. Open **Insights** (This year selected). Read the Running cost card.
2. Touch and hold last month's bar in Monthly costs.
3. Touch and hold each point in Cost per km by month, then each point in Fuel efficiency by tank.
4. Scroll to Where the money goes and Vehicles compared.

EXPECTED

- ✓ Step 1: Rs. 53.72 / km; Rs. 91,325 over 1,700 km; Fuel Rs. 21.07 / km, Maintenance Rs. 6.18 / km, Other Rs. 26.47 / km.
- ✓ Step 2: September 2026 · Total Rs. 15,750 · Fuel Rs. 15,750 · Maintenance Rs. 0 · Other Rs. 0.
- ✓ Step 3: a line with two points, Sep and Oct: September 2026 · Rs. 35.00 per km · 450 km driven and October 2026 · Rs. 60.46 per km · 1,250 km driven. Efficiency: three points with a dashed line labelled Avg 20.00: 20 Sep 2026 · 22.50 km/L · 450 km on 20 L, 11 Oct 2026 · 18.33 km/L · 550 km on 30 L, 11 Oct 2026 · 20.00 km/L · 500 km on 25 L.
- ✓ Step 4: Insurance Rs. 45,000 · 49%, Fuel Rs. 35,825 · 39%, Maintenance Rs. 10,500 · 11%. Aqua: Rs. 53.72 / km, CAB-1234 · 1,700 km · 20.00 km/L; Dio still –, BGH-4521 · 0 km.

☐ Pass ☐ Fail Notes: _____

5.4 Switch the period

STEPS

1. Tap **This month**, then **All time**, then **This year**.

EXPECTED

- ✓ This month: Rs. 60.46 / km, Rs. 75,575 over 1,250 km, Fuel Rs. 16.06 / km, Maintenance Rs. 8.40 / km, Other Rs. 36.00 / km; Where the money goes: Insurance Rs. 45,000 · 60%, Fuel Rs. 20,075 · 27%, Maintenance Rs. 10,500 · 14%; in Vehicles compared, Aqua shows Rs. 60.46 / km and 1,250 km.
- ✓ All time and This year: the same as 5.3 (Rs. 53.72 / km).
- ✓ Monthly costs, Cost per km by month and Fuel efficiency don't change with the period.

☐ Pass ☐ Fail Notes: _____

5.5 Compare with a second vehicle that has data

STEPS

1. Fuel tab → tap **Dio** in the switcher → **Log fill-up**: Odometer reading → `12000`, Litres → `5`, Amount paid → `1825`, full. Save.
2. **Log fill-up** again: `12150`, Litres → `3`, Amount paid → `1095`, full. Save.
3. Open **Insights** (Dio selected, This year).

EXPECTED

- ✓ Step 2: Dio's Fuel tab: gauge 50.00, Average and Best 50.00 km/L, This month Rs. 2,920, Fuel cost Rs. 7.30 / km, All time: Rs. 2,920 on 2 fill-ups, 8 L.
- ✓ Step 3: Running cost Rs. 22.80 / km, Rs. 3,420 over 150 km, Fuel Rs. 19.47 / km, Maintenance Rs. 0.00 / km, Other Rs. 3.33 / km.
- ✓ Vehicles compared: Toyota Aqua Rs. 53.72 / km (the longer bar) and Honda Dio Rs. 22.80 / km with BGH-4521 · 150 km · 50.00 km/L; Honda Dio's name is now the brighter one.

☐ Pass ☐ Fail Notes: _____

5.6 Other tabs agree

STEPS

1. Tap **Aqua** in the switcher. Open **Expenses**: tap **This year**, scroll to Monthly spending, then tap **This month**. Open the **Garage**.

EXPECTED

- ✓ Expenses: This year Rs. 91,325; Monthly spending: this month Rs. 75,575, last month Rs. 15,750; This month Rs. 75,575. Your vehicles (this month): Toyota Aqua Rs. 75,575, Honda Dio Rs. 3,420.
- ✓ Garage (Aqua): Average 20.00 km/L, Fuel cost Rs. 18.05 / km, Spent this month Rs. 75,575, odometer 45,700 km.

☐ Pass ☐ Fail Notes: _____

Phase 6 — Reminders & notifications

Aqua is selected. Notifications are pushed by the API right after any odometer change (a fill-up or a reading): each reminder is notified once when it becomes due soon and once when it's due. Pushes need Firebase in both the API and the app build. Push text names the vehicle as **Toyota Aqua CAB-1234**.

6.1 The Reminders screen

STEPS

1. On the Garage tap the Reminders card. Scroll down.

EXPECTED

- ✓ Title Reminders, an **Add reminder** button at the bottom right.
- ✓ A lavender card: Insurance expires in 20 days / Expires 31 Oct 2026.
- ✓ On the sheet: a notifications panel (6.2), then Due soon: Insurance expires in 20 days / Expires 31 Oct 2026 / amber Due soon pill / From your documents; then Upcoming: Oil change due in 5,000 km / Due at 50,700 km / Upcoming / From your services.

☐ Pass ☐ Fail Notes: _____

6.2 Turn on notifications

STEPS

1. Read the panel at the top of the sheet.
2. Tap **Turn on notifications**, then **Allow** in the phone's prompt.

EXPECTED

- ✓ Step 1: Get reminder notifications / Drivon can tell you when a service is due or a document is about to expire. and a **Turn on notifications** button.
- ✓ Step 2: the prompt asks to allow Drivon to send notifications. Afterwards the panel shows a green bell, Notifications are on. and **Send a test**.
- ✓ If it says Notifications are on for date reminders. Mileage reminders show here. instead, push isn't working (missing `google-services.json` or the API couldn't register the phone): stop and fix that, since 6.5–6.8 need push.
- ✓ If the panel already showed Notifications are on. in step 1 (allowed earlier), step 2 is skipped. That still passes.

☐ Pass ☐ Fail Notes: _____

6.3 Send a test notification

STEPS

1. Tap **Send a test**. Pull down the notification shade.

EXPECTED

✓ A Drivon notification right away: Drivon reminders are on / This is how your reminders will look.

☐ Pass ☐ Fail Notes: _____

6.4 Reminder form checks

STEPS

1. Tap **Add reminder**. Look at the form, then tap the purple **Add reminder** button without filling anything.
2. What's due → **Emission test** , Due at odometer (optional) → **45000** . Tap **Add reminder**.

EXPECTED

✓ Step 1: title Add reminder; **What's due** with the hint For example, emission test; Set a date, an odometer reading or both. You'll be reminded at whichever comes first.; **Due date (optional)**; **Due at odometer (optional)** with Currently 45,700 km. Then Enter what the reminder is for. and Set a due date or an odometer reading.

✓ Step 2: Enter more than the current 45,700 km. Nothing is saved.

☐ Pass ☐ Fail Notes: _____

6.5 A reminder due today, and its push

STEPS

1. Clear Due at odometer. Tap **Due date (optional)**: tap the month-and-year label (January 2100), choose this year (today becomes selected), tap **OK**. Tap **Add reminder**.
2. Go back to the Garage and look at the Reminders card.
3. Tap **Odometer history** → **Add reading**: Odometer reading → **45750** (today). Tap **Save reading**. Wait up to a minute.

EXPECTED

✓ Step 1: Reminder added. The lavender card: Emission test due today / Due 11 Oct 2026. Due soon lists Emission test (Your reminder) and then Insurance.

✓ Step 2: Emission test due today / 1 more reminder needs attention.

✓ Step 3: Reading added, then a notification Emission test is due / Toyota Aqua CAB-1234: Due on 11 Oct 2026. Only this one arrives (Insurance was already checked in Phase 5).

☐ Pass ☐ Fail Notes: _____

6.6 A mileage reminder becomes due soon

STEPS

1. Open Reminders (Garage → Reminders card). Tap **Add reminder**: What's due → **Tyre check**, Due at odometer → **46500**. Tap **Add reminder**.
2. Go back to the Garage → **Odometer history** → **Add reading** → **46100**. Save. Wait for the notification.
3. Open Reminders again.

EXPECTED

- ✓ Step 1: Reminder added. Upcoming shows Tyre check due in 750 km / Due at 46,500 km (Your reminder), then Oil change due in 4,950 km / Due at 50,700 km. No notification yet.
- ✓ Step 2: a notification Tyre check is due soon / Toyota Aqua CAB-1234: Due at 46,500 km (400 km to go).
- ✓ Step 3: Due soon: Emission test, Insurance, then Tyre check due in 400 km. Upcoming: Oil change due in 4,600 km.

☐ Pass ☐ Fail Notes: _____

6.7 A fill-up past the mileage pushes at once

STEPS

1. Fuel tab → **Log fill-up**: Odometer reading → **46550**, Litres → **50**, Amount paid → **18250**, full. Tap **Log fill-up**. Wait for the notification.
2. Look at the Fuel tab, then the Garage, then open Reminders.

EXPECTED

- ✓ Step 1: Fill-up logged, then Tyre check is overdue / Toyota Aqua CAB-1234: Due at 46,500 km (50 km past it).
- ✓ Fuel: gauge 21.00, Average 20.40 km/L, Best tank 22.50 km/L, This month Rs. 38,325, Fuel cost Rs. 17.77 / km.
- ✓ Garage: odometer 46,550 km; Reminders card Tyre check is overdue / 2 more reminders need attention with a red icon; Next service Oil change due in 4,150 km.
- ✓ Reminders: lavender card Tyre check is overdue / Due at 46,500 km; sections Overdue (Tyre check, red Overdue pill), Due soon (Emission test, Insurance), Upcoming (Oil change).

☐ Pass ☐ Fail Notes: _____

6.8 Tapping a notification opens the reminders

STEPS

1. Go to the Garage. Pull down the notification shade and tap Tyre check is overdue.

EXPECTED

- ✓ Drivon shows Toyota Aqua's Reminders screen; back returns to the Garage.

☐ Pass ☐ Fail Notes: _____

6.9 Mark a reminder as done

STEPS

1. On Reminders tap the Tyre check row. Tap **Mark as done**, then **Mark as done** in the dialog.

EXPECTED

✓ The Edit reminder form opens with Tyre check and 46500 filled in, with **Save changes** and **Mark as done** buttons.

✓ Dialog Mark as done? / The reminder will be removed.; then Reminder done. Tyre check is gone; the lavender card is Emission test due today.

☐ Pass ☐ Fail Notes: _____

6.10 Move a reminder later

STEPS

1. Tap the Emission test row. Tap the due date and pick **10 days from today** (e.g. 21 Oct 2026). Tap **Save changes**.

EXPECTED

✓ Changes saved. The lavender card is Insurance expires in 20 days. Upcoming: Emission test due in 10 days / Due 21 Oct 2026, then Oil change.

☐ Pass ☐ Fail Notes: _____

6.11 Reminders open their service or document

STEPS

1. Tap the Oil change row, then go back. Tap the Insurance row, then go back.

EXPECTED

✓ Oil change opens Edit service for the oil change; Insurance opens the Insurance document with its photo.

☐ Pass ☐ Fail Notes: _____

6.12 A vehicle without reminders

STEPS

1. Go to the Garage, tap **Dio**, tap the Reminders card. Then go back and tap **Aqua**.

EXPECTED

✓ Dio's card reads Add a reminder. The screen shows No reminders yet / Services with a next date or mileage and documents with an expiry date show up here by themselves. You can add your own too. and an **Add reminder** button.

☐ Pass ☐ Fail Notes: _____

Phase 7 — Ask My Vehicle

Answers are written by an AI, so the wording changes each time. A test passes when the answer contains the facts listed (numbers must match exactly) and invents nothing. Answers can take a few seconds. Aqua is selected; its figures now: average 20.40 km/L, fuel this month Rs. 38,325, fuel last month Rs. 15,750, odometer 46,550 km.

7.1 Open Ask My Vehicle

STEPS

1. On the Garage tap the sparkle icon at the top right.

EXPECTED

- ✓ Title Ask My Vehicle; Ask about your vehicle; Ask about your Toyota Aqua: fuel, services, costs, documents or reminders. Answers come from what you've logged in Drivon.
- ✓ Try asking with five chips: **How much did I spend on fuel this month?**, **What's my average km/L?**, **When is my next service due?**, **Is my insurance still valid?**, **How much does my vehicle cost per km?**
- ✓ Questions are answered by an AI service. Don't include personal details such as phone or ID numbers. and a field Ask about your vehicle with a send arrow. Tapping the arrow with an empty field does nothing.

☐ Pass ☐ Fail Notes: _____

7.2 Average km/L

STEPS

1. Tap the chip **What's my average km/L?**

EXPECTED

- ✓ Your question appears on the right; Looking it up... with a spinner; then an answer on the left.
- ✓ The answer gives **20.40 km/L** (it may add the last tank 21.00 or best 22.50 km/L). Plain text, no headings or tables.

☐ Pass ☐ Fail Notes: _____

7.3 Spend this month, and a follow-up

STEPS

1. Type **How much did I spend on fuel this month?** and tap the arrow.
2. Type **And last month?** and send.

EXPECTED

- ✓ Step 1: **Rs. 38,325** (4 fill-ups this month). Step 2 understands it's still about fuel: **Rs. 15,750** (2 fill-ups in last month). Amounts are written like **Rs. 38,325**.

☐ Pass ☐ Fail Notes: _____

7.4 Next service and insurance

STEPS

1. Send **When is my next service due?**, then **Is my insurance still valid?**

EXPECTED

✓ Next service: **oil change at 50,700 km**, about **4,150 km** from now (odometer 46,550 km).

✓ Insurance: **valid**, expiring on **31 Oct 2026** (20 days from today).

☐ Pass ☐ Fail Notes: _____

7.5 Cost per km

STEPS

1. Send **How much does my vehicle cost per km this year?**

EXPECTED

✓ **Rs. 42.97 per km** (Rs. 109,575 over 2,550 km), the same as Insights → This year. It may also give the parts: fuel Rs. 21.21, maintenance Rs. 4.12, other Rs. 17.65 per km.

☐ Pass ☐ Fail Notes: _____

7.6 General advice is labelled

STEPS

1. Send **What does a wheel alignment do?**

EXPECTED

✓ A short answer that starts with **General advice:** and doesn't claim facts about your vehicle.

☐ Pass ☐ Fail Notes: _____

7.7 Off-topic and write requests are declined

STEPS

1. Send **Who won the last cricket world cup?**
2. Send **Delete my last fill-up**. Then go back and open the Fuel tab.

EXPECTED

✓ Step 1: a polite one-sentence refusal; no cricket answer.

✓ Step 2: it says it can only look things up and explains how to delete a fill-up in the app. The Fuel tab is unchanged (the Rs. 18,250 fill-up is still there).

☐ Pass ☐ Fail Notes: _____

7.8 Start over

STEPS

1. Open Ask My Vehicle again (the earlier conversation is still there). Tap the **Start over** icon at the top right.

EXPECTED

✓ The conversation clears and the welcome text with the five chips is back; the Start over icon disappears.

☐ Pass ☐ Fail Notes: _____

7.9 Answers follow the selected vehicle

STEPS

1. Go back, tap **Dio** on the Garage, then tap the Ask My Vehicle card. Tap **What's my average km/L?**

EXPECTED

✓ The welcome text says Ask about your Honda Dio: ...; the answer gives **50.00 km/L**.

☐ Pass ☐ Fail Notes: _____

7.10 Another user's data is never used

STEPS

1. Tap **Start over**, go back, tap **Aqua**. Open Ask My Vehicle and send `Compare my two vehicles' fuel efficiency`.

EXPECTED

✓ Only Toyota Aqua (20.40 km/L) and Honda Dio (50.00 km/L) are mentioned; nothing from other accounts or made-up vehicles.

☐ Pass ☐ Fail Notes: _____

Phase 8 — Offline

How to go offline in this setup. The app reaches your laptop's API through the USB cable (**adb reverse**), so **airplane mode does nothing**, and stopping the API only gives Something went wrong. Try again. To go offline, **unplug the USB cable**: the app keeps running, and the phone can no longer reach the API. To come back online, plug the cable in and run the same **adb reverse tcp:8080 tcp:8080** setup command again (it is removed whenever the phone disconnects).

8.1 Save the screens while online

STEPS

1. Cable connected, Aqua selected. Open the Garage, Fuel, Service, Expenses and Insights tabs; Garage → Documents → Insurance; Garage → Reminders. Return to the Garage.

EXPECTED

✓ Everything loads normally; no offline line at the top.

☐ Pass ☐ Fail Notes: _____

8.2 Browse offline

STEPS

1. Unplug the USB cable. On the Garage, pull down to refresh.
2. Open each tab and pull down to refresh on the Fuel tab.

EXPECTED

✓ A line appears at the top of the tabs: a cloud icon and You're offline. Showing what was saved on this phone.

✓ All tabs still show the figures from 8.1 (Garage odometer 46,550 km, Fuel this month Rs. 38,325, etc.). Nothing crashes.

☐ Pass ☐ Fail Notes: _____

8.3 What needs a connection says so

STEPS

1. Garage → Documents → Insurance.
2. Expenses → **Add expense**: **Parking**, Amount → `100`. Tap **Add expense**. Then go back.
3. Garage → sparkle icon → send `What's my average km/L?`

EXPECTED

- ✓ Step 1: the details are shown, but the photo area shows Couldn't load the file. / Can't reach Drivon. Check your connection and try again. with **Try again**.
- ✓ Step 2: a red note Can't reach Drivon. Check your connection and try again.; the form stays open; no expense is added.
- ✓ Step 3: under your question, a red icon and Can't reach Drivon. Check your connection and try again. with a **Try again** button. Leave it there.

☐ Pass ☐ Fail Notes: _____

8.4 Log fill-ups offline

STEPS

1. Fuel → **Log fill-up**: Odometer reading → `46800`, Litres → `10`, Amount paid → `3650`, Filled to full **off**. Tap **Log fill-up**.
2. **Log fill-up** again: Date → **yesterday**, Odometer reading → `47000`, Litres → `10`, Amount paid → `3650`, full on. Tap **Log fill-up**.
3. Look at the Fuel tab. Tap **Sync now**.

EXPECTED

- ✓ Each time: No connection. The fill-up is saved on this phone and will sync when you're back online. and the form closes.
- ✓ Above Fill-ups: Waiting to sync with a **Sync now** button, Saved on this phone. km/L and totals update once they reach your account., and two rows: 10 L · Rs. 3,650 / 11 Oct 2026 · 46,800 km / Not synced yet / **Discard**, and 10 L · Rs. 3,650 / 10 Oct 2026 · 47,000 km / Not synced yet.
- ✓ The figures don't change (This month Rs. 38,325). Sync now briefly shows Syncing..., then nothing changes.

☐ Pass ☐ Fail Notes: _____

8.5 Saved fill-ups survive a restart

STEPS

1. Still unplugged: close the app completely and open it from its icon. Open the Fuel tab.

EXPECTED

- ✓ You stay signed in; the Garage shows the saved data with the offline line; the two fill-ups are still under Waiting to sync.

☐ Pass ☐ Fail Notes: _____

8.6 Sign-out warns about unsynced fill-ups

STEPS

1. Garage → account icon → **Sign out**. Then tap **Cancel**.

EXPECTED

✓ A dialog Sign out without syncing? / 2 fill-ups saved offline haven't synced yet. Signing out deletes them from this phone. with **Cancel** and **Sign out**. Cancel keeps you signed in.

☐ Pass ☐ Fail Notes: _____

8.7 Back online: sync, and a refused fill-up

STEPS

1. Plug the cable in and run the `adb reverse` setup command again.
2. On the Fuel tab pull down to refresh (or tap **Sync now**). Wait a few seconds.
3. Open the Garage.

EXPECTED

✓ The offline line disappears. The 46,800 km fill-up moves into Fill-ups: Rs. 3,650 / 11 Oct 2026 · 10 L · 46,800 km with Top-up.

✓ The 47,000 km one stays under Waiting to sync with a red icon and Not saved: the odometer doesn't fit the readings on other dates. Correct it in the odometer history and try again, or discard it., plus **Try again** and **Discard**. Sync now is gone.

✓ Figures: This month Rs. 41,975, footnote All time: Rs. 57,725 on 7 fill-ups, 160 L; Average still 20.40 km/L. Garage: odometer 46,800 km, Spent this month Rs. 97,475.

✓ No reminder notification arrives (nothing new became due).

☐ Pass ☐ Fail Notes: _____

8.8 Discard the refused fill-up

STEPS

1. Tap **Discard** on the refused row, then **Discard** in the dialog.

EXPECTED

✓ Dialog Discard this fill-up? / It was never saved to your account, so it will be gone.; then the Waiting to sync section disappears. The totals are unchanged.

☐ Pass ☐ Fail Notes: _____

8.9 Retry the question that failed offline

STEPS

1. Garage → sparkle icon. Under the failed question from 8.3, tap **Try again**.

EXPECTED

✓ The red note goes, Looking it up… shows, then the answer: **20.40 km/L** (the top-up doesn't change it).

☐ Pass ☐ Fail Notes: _____

Optional checks

X.1 Notifications refused

STEPS

1. On another test account (or after reinstalling), at 6.2 tap **Don't allow**. Then tap **Open settings**, allow notifications for Drivon and return to the app.

EXPECTED

✓ After refusing: **Notifications are off for Drivon. Turn them on in your phone's settings.** with **Open settings**, which opens the phone's settings for Drivon. After allowing and returning: **Notifications are on.**

☐ Pass ☐ Fail Notes: _____

X.2 A PDF over 5 MB

STEPS

1. Documents → **Add document** → **Choose PDF** and pick a PDF larger than 5 MB.

EXPECTED

✓ A red note: **This file is over 5 MB. Choose a smaller PDF or take a photo of the paper instead.** Nothing is chosen.

☐ Pass ☐ Fail Notes: _____

X.3 Large text and back navigation

STEPS

1. In the phone's Settings, set the font size to the largest. Open each tab, each form and the Insights charts.
2. On any form, use the system back gesture.

EXPECTED

✓ Text grows. Figures such as **Rs. 18.05 / km** shrink to fit their tile and are never cut off; chart legends wrap; nothing overlaps.

✓ Back closes the form without saving and returns to where you came from.
